

New **TV-TOOLS** HD compact player for JVC's GM-F display series

NT-COMPACT-PLR3

The new version of the **TV-TOOLS** compact player enables content reproduction in full HD (1920 x 1080) resolution. A **TV-TOOLS** player licence is pre-installed. A connection to your network is given via a fast 1GHz LAN port or via an optional integrated W-LAN N-network. The dual-core engine, combined with the Nvidia graphics chip set, provides an excellent performance.

Highlights:

- Now with Windows 7
- Full 1080p support in landscape mode (normal screen operation)
- Up to 5 screen zones
- Smooth scrolling
- Video output VGA + HDMI + DVI
- 40 GB solid state drive
- Network: 10/100/1000 & WiFi 802.11n

Technical Data:

- Chassis Mini ITX
- Motherboard ZOTAC ION
- CPU ATOM Dual Core N330
- Graphic chip set NVIDIA MCP7A-ION
- Audio HAD 5.1, a SPDIF coaxial + optical
- 2 Go DDRII 800 Dual Channel
- 40 GB solid state drive
- Ethernet LAN Gigabit + WiFi 802.11n
- 4 USB 2.0
- RS-232
- Outputs VGA + DVI + HDMI
- Windows 7 multi-language
- **Optional Accessory:** complete assembly kit including bracket for Mini PC and cabling

Our new compact player can also be purchased without **TV-TOOLS** player licence or complete without operating system

*Restricted portrait applications:

Exclusively in portrait operation the screen is swivelled by 90°, therefore web capture and PowerPoint insertion are not supported. In normal operation, (landscape format) all functions are supported.

NEW

Now with solid state drive

- Faster
- High reliability
- Less power consumption

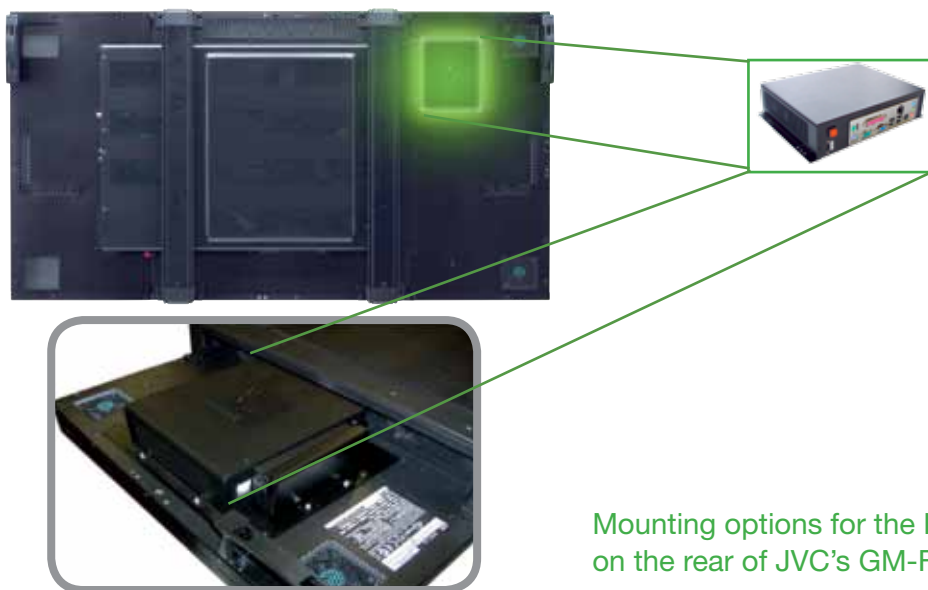

Assembly kit of the new **TV-TOOLS** HD compact player 3

There is an optional cable kit for the **TV-TOOLS** compact player to keep installation on the GM-F Series monitors neat. Only two cables - for power and network - are connected to the display, avoiding cable tangling. At the same time, operational reliability is increased.

The cable kit consists of:

- a) A mechanical component, accommodating the PC as well as the associated power supply
- b) A complete cable kit, providing neat assembly and a cable duct.

Mounting options for the HD compact player on the rear of JVC's GM-F full HD display.
